To the Customers of the Upper Southampton Municipal Authority (USMA),

You may have recently heard in the news that there is a possibility that the Bucks County Water & Sewer Authority (BCWSA) may sell the sanitary sewer part of their system to Aqua Pa, a division of Essential Utilities.

This proposed sale will have no impact on the customers of the USMA. There are no sewer mains that are owned and operated by the USMA that flow to or are connected to the BCWSA system.

The USMA is committed to providing quality service to the Upper Southampton community and retaining ownership and control of our valuable utilities.
